Message from the President

Once again the Club members come through in a big way to give back to the soccer community. This time approximately 150 players, parents, sisters and brothers all showed up at the Waipio soccer complex to remove weeds from three of the fields that needed the most help. Every field was covered in supporters wearing the familiar black and red. Even the morning newspaper pictured the dominance. Hopefully we did more good than harm in the long run. My back and legs are still trying to recover! Thanks very much to all who gave up their Veteran's Day holiday to work probably harder than at your real jobs! The Bulls do certainly make a difference in Hawaii and it does get noticed. More importantly, we know we are doing the right thing. Great job everyone!

With the Holidays just around the corner, the Club continues on with its efforts to bring soccer to Hawaii. Brian Ching will again be headlining the 8th Annual ProXtreme Camp December 26-29 at the City's Waialae Iki Park. Who knows which friends he will bring with him! This camp is intended to attract soccer loving kids ages 6-14, especially those just beginning to play. Let all of your friends know about it since we would like to see the entire park filled with 200 or more campers. It is a great week of soccer, with professional players and LOTS of Bull's alumni home from college. They all love working with the kids. The camp makes for a great Christmas gift and is easy day care for those who need to work through the Holiday week.

Good luck to all who will be participating in the Mililani 7 Aside tournament, and to all players on their high school teams. Good luck to the 88 Boys at Nomads and the 88 girls at Surf Cup. Show well for the scouting college coaches! Keep playing until the whistle blows!

Happy Thanksgiving to all. Your hard work, dedication to the kids and the sport, and

generosity are most appreciated.

One of our own has come up against some challenges. Kealii (Kane) Fisettes's four-year-old daughter, Addie, was diagnosed with a form of Leukemia and will be undergoing treatment and medical care. Let's band together and give back to the Kane family who has given so much to the soccer community by raising some funds to help make this time a little easier.
